

# In-House Barista Partnerships

Office culture done right!

Everybody loves great coffee. Bring the buzz back into your workplace with an in-house barista. We'll provide the coffee cart, Five Senses specialty coffee, permits and a skilled and passionate barista.

You spread the word.

## what's involved

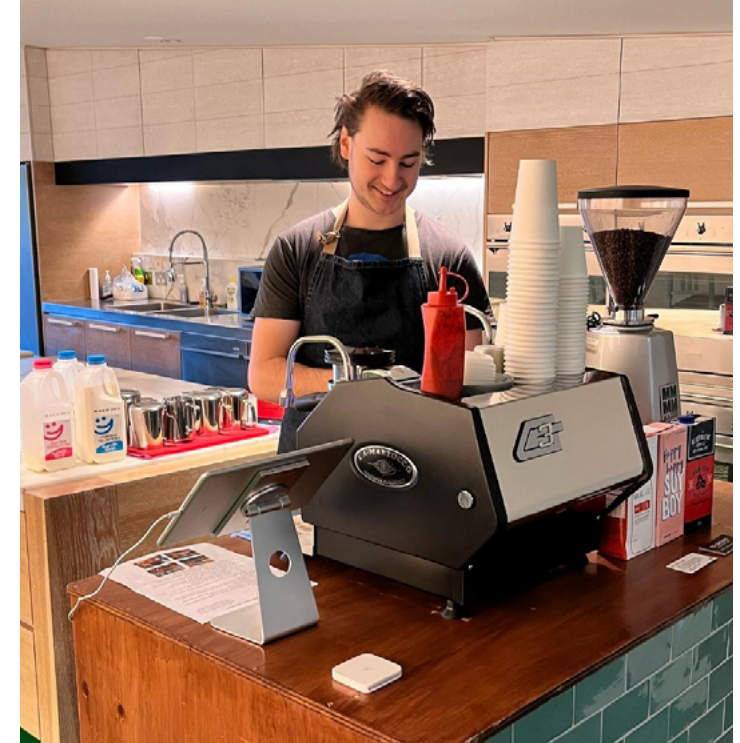

Here's how it works...

- Together we set the daily sales target
- Staff and clients pay for what they want
- This offsets the cost to you

Have a bigger budget and want to reward your staff? You can subsidise coffees or even offer complimentary ones. What better way to get staff back in the office!

We can work on a model that works best for your business.

Make an impact while creating a buzz in the office. An In-House Barista service is a great way to retain and attract staff. It is also a way for your company to increase your social responsibility spend and profile in this space. Supporting social enterprise while creating an enviable office culture, it's a win win.

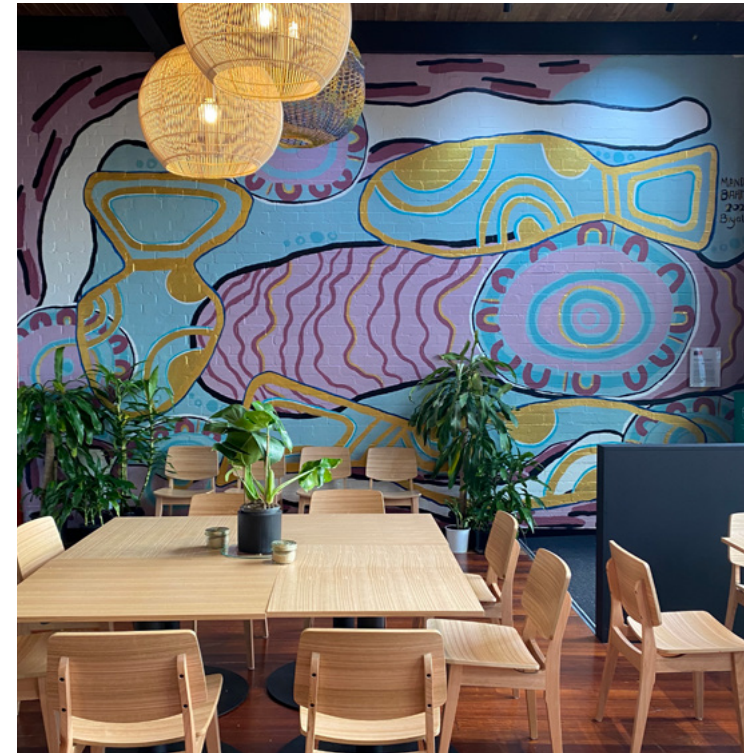

# life changing coffee.

Co-Ground is a social enterprise, meaning we do business for good. All profits go towards our local and global projects.

Our overseas education, health and livelihood programs are developed by communities themselves, ensuring that ownership stays at a local level and our impact is sustainable.

Here in Australia, we have turned our focus to employment and training opportunities. Opening flagship cafes which focus on engaging and supporting Indigenous suppliers and partners wherever possible. Developing programs backing Aboriginal and Torres Strait Islander young people.

Find out more about impact [here](#).
